

# Screenshots and validation rules of solar battery small generation unit (SGU) applications

## Introduction

This document is designed to provide early exposure to the application form likely to be used for solar batteries applying through the [Cheaper Home Batteries Program](#). It provides information to Registered Agents and Persons registering SGUs for Small-scale Technology Certificates (STCs). Once regulations are finalised, eligible applications for solar battery STCs will be submitted through the REC Registry. The screenshots below show the proposed questions to be included in the REC Registry along with the validation rules that applications must comply with to be submitted.

Disclaimer: Please note that the below is reflective of the current state of the form as of 12 June 2025. The form is subject to change dependent on the final drafting of amendments to the *Renewable Energy (Electricity) Regulations 2001* which are proposed to be in place prior to 1 July 2025.

## Screenshots and Validation Rules

TYPE DETAILS	
<div><div>Type of system:*</div><div><div>S.G.U. - solar battery (deeme</div><div><div>S.G.U. - solar (deemed)</div><div>S.G.U. - wind (deemed)</div><div>S.G.U. - hydro (deemed)</div><div>S.G.U. - solar battery (deemed)</div></div></div></div>

Certificate tag: ? <input type="text"/>		

Installer and Designer written statement

**Designer accreditation statement:**..\*

Do you have a written statement by the designer of the unit (or, if the installer of the unit is accredited for the design of the unit, the installer of the unit) stating:

- the name of the designer of the unit, and
- the accreditation scheme type or classification, and accreditation number of the designer of the unit, and
- that the designer complied with all relevant requirements of the accreditation scheme for the design of the unit?

No

Yes

**Error:** Please check and correct the following issues before continuing:

- The combination of compulsory written installer and designer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.

**Installer accreditation statement:**..\*

Do you have a written statement by the installer stating:

- the name of the installer of the unit, and
- the accreditation scheme type or classification and accreditation number of the installer of the unit, and
- the installer complied with all relevant requirements of the accreditation scheme for the installation of the unit?

No

Yes

**Error:** Please check and correct the following issues before continuing:

- The combination of compulsory written installer and designer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.

<div><b>Design and installation of the unit:*</b></div> <div>Do you have a written statement by the installer of the unit stating:</div> <div><ul style="list-style-type: none"><li>that the installer has a copy of the design of the unit, and</li><li>if the design was not modified during the installation of the unit - that the unit was installed, in all material respects, in accordance with the design, and</li><li>if the design was modified during the installation of the unit - that the modifications were consistent with all relevant requirements of the accreditation scheme for the design of the unit, and that the unit was installed, in all material respects, in accordance with the modified design, and</li><li>that the unit will perform consistently with the design or modified design (as applicable)?</li></ul></div> <div><div></div><div>No</div><div>Yes</div></div>	<div><b>Error:</b> Please check and correct the following issues before continuing:</div> <div><ul style="list-style-type: none"><li>The combination of compulsory written installer and designer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.</li></ul></div>
<div><b>Local, State and Territory government requirements:*</b></div> <div>Do you have a written statement by the installer of the unit that all local and State or Territory government requirements have been met for the installation of the unit?</div> <div><div></div><div>No</div><div>Yes</div></div>	<div><b>Error:</b> Please check and correct the following issues before continuing:</div> <div><ul style="list-style-type: none"><li>The combination of compulsory written installer and designer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.</li></ul></div>
<div><b>Electrical safety documentation:*</b></div> <div>Do you have a copy of any documentation required, by the law of the jurisdiction in which the unit was installed, to be provided to the owner of the unit certifying that the electrical installation of the unit complies with laws relating to safety and technical standards?</div> <div><div></div><div>No</div><div>Yes</div></div>	<div><b>Error:</b> Please check and correct the following issues before continuing:</div> <div><ul style="list-style-type: none"><li>The combination of compulsory written installer and designer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.</li></ul></div>

**Unit componentry statements:**

Do you have a written statement by the installer of the unit stating that:

- if the unit is grid-connected, the solar battery component is capable of being coordinated through a Virtual Power Plant (VPP); and
- the solar battery inverter is installed as part of a VPP/Aggregated Control, or capable of being configured to participate in a VPP/Aggregated Control; and
- the solar battery used in the installation of the unit complies with IEC 62619:2017 and the installation complies with AS/NZS 5139:2019 including a battery safety guide being provided to the owner; and
- the model(s) of the battery used in the installation of the unit was a Clean Energy Council approved eligible solar battery model and Clean Energy Council approved solar battery inverter model?

No

Yes

**On-site attendance statements:**

For a unit that is a solar battery do you have a written statement by the installer of the unit that the installer was on-site to install or supervise the installation of the unit in accordance with the accreditation scheme under which the person is accredited?

No

Yes

For a unit that is a solar battery do you have evidence from the installer of the unit that the installer was on-site to install or supervise the installation of the unit in accordance with the accreditation scheme under which the person is accredited?

No

Yes

**Error:** Please check and correct the following issues before continuing:

- The combination of compulsory written installer and designer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.

**Error:** Please check and correct the following issues before continuing:

- The combination of compulsory written installer and designer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.

<p><b>True, correct and complete statement:...</b></p> <p>That for each statement for the purposes of small-scale technology certificate eligibility you have obtained a statement that the information in the statement is true, correct and complete?</p> <div><div></div><div>No</div><div>Yes</div></div>	<p><b>Error:</b> Please check and correct the following issues before continuing:</p> <ul style="list-style-type: none"><li>The combination of compulsory written installer and designer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.</li></ul>
---	---

**Error:** Please check and correct the following issues before continuing:

- The combination of compulsory written retailer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.

No

Yes

- The combination of compulsory written retailer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.

<div><b>Solar PV Present statements...</b></div> <div>Do you have a written statement from the solar battery retailer stating:</div> <div><ul style="list-style-type: none"><li>that a solar PV system is present at the address and</li><li>the solar battery is appropriately sized for that system?</li></ul></div> <div><div></div><div>No</div><div>Yes</div></div>	<div><b>Error:</b> Please check and correct the following issues before continuing:</div> <div><ul style="list-style-type: none"><li>The combination of compulsory written retailer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.</li></ul></div>
<div><b>Completion and connection statements...</b></div> <div>Do you have a written statement from the solar battery retailer stating:</div> <div><ul style="list-style-type: none"><li>if the unit is grid-connected that:<ul style="list-style-type: none"><li>the unit has been connected to the grid; or</li><li>the solar battery retailer has completed its obligations under the contract (or the quote accepted) relating to the connection of the unit to the grid, including (if applicable) ensuring the system is registered on the Distributed Energy Resource Register with the Australian Energy Market Operator?</li></ul></li></ul></div> <div><div></div><div>No</div><div>Yes</div></div>	<div><b>Error:</b> Please check and correct the following issues before continuing:</div> <div><ul style="list-style-type: none"><li>The combination of compulsory written retailer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.</li></ul></div>

Provision of unit information statements\*

Do you have a written statement from the solar battery retailer stating:

- that the solar battery retailer confirms that the unit sold is Virtual Power Plant capable, and
- that the solar battery retailer has provided information in writing to the owner of the unit about one or more of the following for the unit:
  - the expected payback period
  - the expected energy savings
  - the expected cost savings, and
- that the information provided is true, correct and complete?

▼

No

Yes

Error: Please check and correct the following issues before continuing:

- The combination of compulsory written retailer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.

Please note *expected energy savings* is expected to change to *expected energy benefits* in the final version of this declaration.

Conflicts of interest\*

Do you have a written statement from the solar battery retailer stating:

- that any actual or potential conflicts of interest of the solar battery retailer relating to the sale or installation of the unit, or the creation of certificates for the unit, including any conflicts of interest in relation to persons or entities related to the solar battery retailer, have been:
  - disclosed to the owner of the unit; and
  - managed appropriately?

▼

No

Yes

Error: Please check and correct the following issues before continuing:

- The combination of compulsory written retailer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.

<div><b>Retailer eligibility statement..*</b></div> <div>Do you have a written statement from the solar battery retailer stating that a declaration by the Regulator that the solar battery retailer is ineligible to make statements under regulation 20AH is not in effect on the day the statement is given?</div> <div><div></div><div>No</div><div>Yes</div></div>	<div><b>Error:</b> Please check and correct the following issues before continuing:</div> <div><ul style="list-style-type: none"><li>The combination of compulsory written retailer statement responses doesn't meet the legislative requirements, so the registration cannot proceed.</li></ul></div>

Legal declaration

Register small generation unit - legal declaration

Based on the information you have provided this SGU may be eligible to create the following number of STCs : 297

Installation date:

26/5/2025

Nominal kW capacity:

33.000

Usable kW capacity:

32.000

Solar battery brand:

Delta

Solar battery model:

BX6.3\_DD

Physical location address:

63 test BRIDGE  
Canberra ACT 2600

Legal declaration

I declare and acknowledge that:

I am the account user for the REC Registry account used to create the certificates related to the small generation unit described above.

I have [read and understand the applicable eligibility details](#) for creating STCs or LGCs related to the installation of small generation unit (whether small-scale solar panel, solar battery, wind or hydro systems) installations.

I have obtained all of the documents that I am required to obtain (such as written statements from retailers, designers and installers) to satisfy the conditions to create certificates under the [Renewable Energy \(Electricity\) Regulations 2001](#).

**(If I am an owner)** I am the owner of the small generation unit at the time the right to create the certificate arises.

**(If I am an agent)** I have read and understand the [responsibilities of being an agent](#).

**(If I am an agent)** The owner of the small generation unit has, by written notice and in accordance with the Regulations, assigned their right to create STCs or LGCs to me under section 23C(2) of the Renewable Energy (Electricity) Act 2000.

The small generation unit related to the certificates I am creating was installed within 12 months of the date I am creating the certificates.

The information I have provided for the purpose of registration of STCs or LGCs is true, correct and complete.

I have read and understand the [penalties that apply for breaching](#) the Renewable Energy (Electricity) Act 2000.

I am entitled to create STCs or LGCs related to the small generation unit described above and acknowledge that I may contravene [sections 24 and 24A of the Renewable Energy \(Electricity\) Act 2000](#) if I create a certificate I am not entitled to create.

I understand that **providing false or misleading information is a serious offence** under the [Criminal Code Act 1995](#).

I understand that providing false or misleading information, or the improper creation of certificates, may also result in administrative action (such as the suspension of my REC Registry account or registration as a registered person) as well as civil action such as the commencement of civil penalty proceedings.

I understand that if I am found to no longer be a [fit and proper person](#), the Clean Energy Regulator may **suspend my registration as a registered person** under section 30A of the Renewable Energy (Electricity) Act 2000.

I understand that information provided for the purpose of the **registration of STCs or LGCs may be verified** by the Clean Energy Regulator, including by requesting further **clarification or documents**.

I have read the above notice and am aware that under the [Renewable Energy \(Electricity\) Act 2000](#) and [Renewable Energy \(Electricity\) Regulations 2001](#) penalties apply, outlined above, for providing false or misleading information. .

Please note *kW capacity* is expected to change to *kWh capacity* in the final version of this declaration.

Further useful information

- [Cheaper Home Batteries Program](#) (Clean Energy Regulator website) – for updated information for safety, STC markets, homeowners, small business, installers, designers, retailers and registered agents
- [Cheaper Home Batteries Program](#) (Department of Climate Change, Energy, the Environment and Water website) – for information regarding eligibility criteria
- [Additional Information about the Cheaper Home Batteries Program](#) (Department of Climate Change, Energy, the Environment and Water website) – for further information on eligibility criteria, especially regarding more granular information including definitions of premises, nominal/usable capacity and on/off grid systems
